### ABOUT ME

Fullstack developer, with a strong affinity for logic and clean code. My dedication to meeting objectives and my ability to work collaboratively make me a valuable resource for any company seeking a committed and reliable developer. In my free time, I enjoy traveling, photography, and learning Korean.

### WORK EXPERIENCE

#### FULLSTACK/ASSEMBLER INSTITUTE OF TECHNOLOGY. REMOTE OCT23-JUN24

Intensive 7-month master's program focused on full-stack development, including various workshops and live coding sessions, following the "learn by doing" methodology. Simulating a real work environment, I have completed individual and squad projects, practicing peer learning and adhering to MVPs with tight Time-To-Market (TTM). Throughout these months, I have specialized in the MERN and PERN stacks, utilizing agile development techniques (Scrum).
